

# Patent Register Portal

**Geneva  
October 30, 2018**

Andrew Czajkowski  
Head, Innovation and Technology Support Section

# Overview

- Background
- Patent Register Portal v2.0
- Go-live
- Further improvements

# Background

- The patent register portal was initially developed in 2013 as part of the Development Agenda Project on IP and the Public Domain
- A gateway to legal-status-related information from various jurisdictions
  - In particular to identify *which* information can be retrieved online and *how* to access it

# Patent Register Portal v1.0

- First version offered limited functionality and cluttered information from approximately 160 jurisdictions

**Patent Register Portal**

The portal aims to facilitate the verification of legal status of patents and related SPCs by compiling relevant information of national registers of various jurisdictions, e.g. availability of online access to a national or regional register. Please see the [Quick Help](#) for how to use this page, and the [User Guide](#) for detailed information about the page and the portal project. To access a register online, please click on the respective Y in the column 'Online National Register'. The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by WIPO.

# Impetus for a new Patent Register Portal

- Development Agenda Project on the Use of Information in the Public Domain for Economic Development initiated in April 2016
  - Practical guides on the identification and use of inventions in the public domain
  - Improved Patent Register Portal

# Patent Register Portal v2.0

- A survey sent to patent information groups and other users to understand user needs
- Based on the survey results a decision was taken to redesign the portal:
  - Develop a more user friendly interface
  - Add more features and searchable information
  - Update and extend data

# New features

- The new patent register portal is designed based on a menu-driven user interface  
[http://www.wipo.int/patent\\_register\\_portal/en/index.html](http://www.wipo.int/patent_register_portal/en/index.html)
- Data from more than 200 jurisdictions and patent information collections
- Map is based on UN country boundaries and has been approved by WIPO's Office of Legal Counsel

# New features: Map View

- Different maps allowing users to visualize information based on pre-selected criteria

Map view | [Map view with filters](#) | [Table overview](#) | [Detailed jurisdiction files](#)

[Online Register](#) | [Online Gazette](#) | [English Interface](#) | [PCT Application/Publication Number](#) | [Inventor/Applicant Name](#) | [Priority Data](#) | [Fee Payment](#) | [☰](#)

Jurisdictions that have an online patent register

**Online Register**

- Yes
- No
- No data available

# Tabs on Map View

Jurisdictions that have an online patent register

Online Register

- Yes
- No
- No data available

National Phase Entry  
Legal Status  
Dossier/File Wrapper Information  
Supplementary Protection Certificates/Patent Term Extension  
Full Publications  
Regional Membership/Patent Information Collection

# New features: Pop-up Window with Fact Sheet

Map view | Map view with filters | Table overview | Detailed jurisdiction files

Online Register | Online Gazette | English Interface | PCT Application/Publication Number | Inventor/Applicant Name | Priority Data | Fee Payment

Online registers that provide information about the status of the payment of fees related to the lifecycle of a patent (e.g. request for examination, renewal/maintenance, reinstatement, opposition)

**Fee Payment**

- Yes
- No
- No data available

**Fact sheet**

Jurisdiction: [CANADA, CA](#)

Regional Membership/Patent Information Collection: Not applicable

Online Register: [Yes](#)

Online Gazette: [Yes](#)

English Interface: Yes

Inventor/Applicant Name: Yes

Priority Data: Yes

# New features: Fact Sheets

- Direct links to the online register or gazette or contact details in case of no online site
- Regional membership/patent information collection
- Overview of the information applicable to the jurisdiction (table information)
- Link to the detailed jurisdiction file (accessible PDF file)

# New features: Map view with filters

- New filtering option allows users to find specific information on the map

The screenshot displays a web application interface for a map view. At the top, there are four tabs: 'Map view', 'Map view with filters' (which is selected), 'Table overview', and 'Detailed jurisdiction files'. Below the tabs, a blue header bar contains the text 'Combine two or more filters to narrow your search' and icons for information and printing. The main area features a world map with a blue overlay. On the left side, there is a filter panel with a yellow border. The filter panel includes a dropdown menu for 'Which services/features are available?' with a toggle switch, and three dropdown menus for 'Online Register', 'Online Gazette', and 'English Interface'. Below these are two more filter categories: 'Which search fields are available online?' and 'Which information can be retrieved online?', each with a toggle switch. The map itself shows a world map with a blue overlay, and there are navigation controls like a home button and a search icon.

# New features: Detailed jurisdiction files

- Detailed help files developed for all covered jurisdictions
- Accessible pdf format that can be accessed by visually impaired people
- Validated by representatives from the designated jurisdiction
- Contains information on particularities of patent protection
- Provides tips and tricks for patent search of online registers

# New features: Detailed jurisdiction file

## ■ Accessible pdf containing additional information.

### MALAYSIA - MY

#### Jurisdiction - General Information

Malaysia is a member of the Patent Cooperation Treaty (PCT) since August 16, 2006, and a member of the Paris Convention for the Protection of Industrial Property since January 1, 1989.

Malaysia is also part of the regional IP information platform ASEAN Patentscope which is accessible at this [link](#).

More legal information about intellectual property-related laws and regulations of Malaysia can be found on WIPO Lex at this [link](#).

#### Online Patent Register and Online Gazette

Malaysia has an **Online Register** which is accessible at this [link](#) and an **Online Gazette** accessible at this [link](#).

#### Features and search functionalities

The online patent register has an **English interface**.

Through the patent register one can retrieve information on **Legal Status Events** and **PCT National Entry Phase**.

The patent register can also be searched by **Applicant/Inventor Name**.

Registered users only have access to advanced search functionalities.

On ASEAN Patentscope, it is also possible to search for Malaysian patents on an English interface by **PCT Application/Publication Number** and by **Applicant/Inventor Name**, and to retrieve information on **Legal Status Events, Priority Data**, and **PCT National Entry Phase**.

The Online Gazette is published in English every four weeks. Only the editions of the last 12 to 14 months are available online. It contains a list of patents basic data.

#### Additional Information

##### Particularities of patent protection in Malaysia

The patents are granted for 20 years from filing under the current law; however applications filed before 1.8.2001 and not granted at that date could avail of the previous law that provided a protection for 15 years from the grant.

#### Legal Status Search tips

**Fee Payment** is not reported but the end of protection date indicated is an indirect indication that annual fees have been paid, and this date will change when the next annual fees are paid.

An example of a **Legal Status Event** is "to published as lapsed patent" for "Application No" PI 20000918.

On ASEAN Patentscope, it is also possible to search for Malaysian patents on an English interface by **PCT Application Number**, e.g., by selecting the box "PCT Filing #" for PCT/US2015/034271.

# Go-live

- New enhanced Patent Register Portal to be launched at a dedicated side event at the next session of the Committee on Development and Intellectual Property (CDIP) planned on Tuesday, November 20

# Further developments

- Regular updates of the information on the portal
- Addition of more information
- Adding additional features on the map to enhance user experience
