Abstract

[EN] The invention relates to size-adjustable all-in-one electronic devices. The devices include a plurality of flexible layers in a stacked configuration, comprising: a flexible LED screen, flexible electronics, a flexible battery unit, and a flexible casing. Further, the devices include a flexible anode, flexible cathode and flexible electrolyte. The flexible components are conformable to the size-adjustable all-in-one electronic devices. The size-adjustable, all-in one electronic devices are a single device that may be folded/unfolded or rolled/unrolled to function as a cell phone, a tablet, and a laptop personal computer.

PAT-INFORMED

Patent Information Initiative for Medicines

PAT-INFORMED DATABASE

The gateway to medicine patent information

Search the Pat-INFORMED database by entering a medicine's INN (International Non-Proprietary Name) to obtain relevant information about its patent status in a particular country. Pat-INFORMED also provides a facility for procurement agencies to make follow-up inquiries directly with participating companies. In addition, this database provides links to available information on PATENTSCOPE, WIPO's own global database.

Search pharmaceutical patents by INN - Ex : efavirenz

IPC Green Inventory

The "IPC Green Inventory", developed by the [IPC Committee of Experts](#), facilitates searches for patent information relating to Environmentally Sound Technologies (ESTs), as listed by the [United Nations Framework Convention on Climate Change \(UNFCCC\)](#).

ESTs are currently scattered widely across the IPC in numerous technical fields. The Inventory attempts to collect them in one place.

Warning - the Inventory does not purport to be fully exhaustive in its coverage.

Tips!

- The ESTs are presented in a hierarchical structure. Click on the ▶ sign to open the hierarchy.
- The links in the "IPC" column will take you to the corresponding place in the scheme.
- The links in the PATENTSCOPE column let you automatically search and display all international patent applications available through PATENTSCOPE which are classified in the relevant IPC place. Note: search results may include irrelevant results not relating to the EST.

February 5, 1992	Italy	Law No. 169 of February 5, 1992 Discipline for the Recognition of Controlled Appellation of Origin for Virgin & Extra Virgin Olive Oils
February 14, 1990	Italy	Law No. 30 of February 14, 1990 Protection of the Appellation of Origin of Prosciutto di San Daniele (San Daniele ham)
February 13, 1990	Italy	Law No. 26 of February 13, 1990 Protection for the Appellation of Origin of Prosciutto di Parma (Parma ham)
January 12, 1990	Italy	Law No. 11 of January 12, 1990 Protection of the Appellation of Origin of Prosciutto di Modena (Modena ham), Delimitation of the Area of Production & Product Characteristics
May 30, 1989	Italy	Law No. 224 of May 30, 1989 for the Protection of the Appellation of Origin of Salame di Varzi (Varzi Salami) Delimitation of the Area of Production and Product Characteristics
November 4, 1981	Italy	Law No. 628 of November 4, 1981 Rules on the Protection of the Appellation of Origin of Prosciutto Veneto Benico-Euganeo (Veneto Benico-Euganeo Ham)
April 10, 1954	Italy	Law No. 125 of April 10, 1954, on the Protection of Appellations of Origin and Typical Appellations of Cheeses
December 7, 1951	Italy	Law No. 1618 of December 7, 1951 Transitional Provisions for the Implementation of Law No. 1068 of November 4, 1950, Establishing Standards for the Area of Production & Characteristics of the Typical Wine Known as Moscato di Pantelleria and of Law No. 1069 of November 4, 1950, Establishing Standards for the Area of Production & Characteristics of the Typical Wines Known as Marsala

PATENTSCOPE: Portale per i registri brevettuali

The screenshot shows the PATENTSCOPE website interface. At the top, there is a navigation bar with 'MENU', 'PATENTSCOPE', 'What is this? x', 'HELP', 'ENGLISH', 'LOGIN', and the WIPO logo. Below the navigation bar, there are links for 'Feedback', 'Search', 'Browse', 'Tools', and 'Settings'. The main heading is 'SIMPLE SEARCH'. A text box below the heading states: 'Using PATENTSCOPE you can search 77 million patent documents including 3.7 million published international p... PCT Publication 48/2019 [28.11.2019] is now available. The next publication date is scheduled as follows: Gazette...'. Below this is a search form with a 'Field' dropdown set to 'Front Page' and a 'Search terms...' input field. A search button with a magnifying glass icon is to the right. A 'Query Examples' link is also visible. A dropdown menu is open under the 'Browse' link, listing various options: 'Browse by Week (PCT)', 'Gazette Archive', 'National Phase Entries Full download', 'National Phase Entries Incremental download (last 7 days)', 'Authority File Download current year', 'Authority File Download All', 'Sequence listing', 'IPC Green Inventory', and 'Portal to patent registers'. The 'Portal to patent registers' option is highlighted with a red rectangular box.

Portale per i registri brevettuali

Patent Register Portal

The Patent Register Portal is your gateway to online patent registers and gazettes and to legal-status-related information from over 200 jurisdictions and patent information collections. Use it as a first step to identify what information can be retrieved online and how to access it.

[Contact us](#) with any suggestions for improvements or updates.

A screenshot of the Patent Register Portal interface. At the top, there are four tabs: "Map view" (selected), "Map view with filters", "Table overview", and "Detailed jurisdiction files". Below the tabs is a dark blue navigation bar with several buttons: "Online Register" (highlighted in yellow), "Online Gazette", "English Interface", "PCT Application/Publication Number", "Inventor/Applicant Name", "Priority Data", "Fee Payment", and a hamburger menu icon. Below the navigation bar is a world map where countries are color-coded: dark blue for "Yes", light grey for "No", and medium grey for "No data available". To the left of the map, there is a legend titled "Online Register" with three entries: "Yes" (dark blue square), "No" (light grey square), and "No data available" (medium grey square). Above the legend are icons for zooming in (+), zooming out (-), home, and search. The text "Jurisdictions that have an online patent register" is positioned above the legend.

ITALY - IT

Jurisdiction - General Information

Italy has been a Contracting Party to the Paris Convention for the Protection of Industrial Property since July 7, 1884. It has also been a Contracting Party to the Patent Cooperation Treaty (PCT) since March 28, 1985, but it can be designated only through a European Patent. In addition, it is a party to the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure and the Patent Law Treaty (PLT).

Italy is a member of the European Patent Organization (EPO).

More legal information about intellectual property-related laws and regulations of Italy can be found on [WIPO Lex](#).

Online Patent Register and Online Gazette

Italy has an [Online Register](#). It does not have an **Online Gazette**.

Features and search functionalities

The online patent register has an **Italian interface**.

Through the patent register you can retrieve information on **Legal Status** and **Fee Payment**. The register covers national patents and utility models, and European patents validated in Italy. It is also possible to access the **Dossier/File Wrapper Information** and the **Full Publications** of a limited number of granted patents which have been filed after 1.7.2008, at this [link](#).

The patent register can also be searched by **Applicant/Inventor Name**.

Information about **Supplementary Protection Certificates (SPCs)** is currently available downloading the corresponding bi-monthly bulletin at this [link](#) that covers the period from 2006 to 2015. It is also possible to search SPCs on the online patent register at this [link](#).

European patents designating Italy can be searched in the patent register or in the [European Patent Register](#).

Additional Information

Particularities of patent protection in Italy

Protection through **SPCs** is available.

Due to an agreement with Italy, the patents of San Marino can be enforced in Italian territory and vice-versa.

Search tips

A new patent application number format was adopted recently, but the databases still accept both the old and the new format.

An example of data reported as **Legal Status** is e.g. "titolata" (grant) given as "Stato finale" for application number TO2007U000142 (old format) or 202007901574746 (new format).

Information about granted European Patents (EP) designating Italy can be searched by inputting the application or publication number in the search box "numero di pubblicazione EPO" (e.g. "1153899") to know if the required translation into Italian language has been filed.

Access to the **Dossier/File Wrapper Information** can be made by searching by application number (old format like "BO2013A000436" or new format like "102013902181342") in the field "Numero Deposito", or by patent number ("0001419510" in the field "Numero Concessione"), then by selecting "Dettagli" then "Visualizza documenti fascicolo".

Full Publications can be downloaded, as separate files (e.g. abstract, description, claims, drawings).

To know if an **SPC** has been granted (in Italian "CPC" for pharma and "CPCF" for phytopharma), you must know the patent application or grant year and month and then download the correspondening bi-monthly bulletin.

Il processo di aggiornamento

- Regolarità degli aggiornamenti del portale
- ‘Contact Us’ form to validate the information and inform us about any updates (new links, new search features etc.)
- Inclusion of and link to other information sources
- Partecipazione dei gruppi di utenti
